Food Politics How The Food

The book isn't about food politics directly, although he mentions it—and me—in the context of the section on Rebellion. Thanks to food heroes like Joan Gussow, Marion Nestle and Karen Washington, may Americans are aware of the nutritional deficiencies inherent to industrialized foods, the plague of food deserts, amd inspired to join movements for locally-grown foods.

Food Politics by Marion Nestle

Food politics is a term which encompasses not only food policy and legislation, but all aspects of the production, control, regulation, inspection, distribution and consumption of commercially grown, and even sometimes home grown, food.The commercial aspects of food production are affected by ethical, cultural, and health concerns, as well as environmental concerns about farming and ...

Food politics - Wikipedia

She vividly illustrates food politics in action: watered-down government dietary advice, schools pushing soft drinks, diet supplements promoted as if they were First Amendment rights. When it comes to the mass production and consumption of food, strategic decisions are driven by economics—not science, not common sense, and certainly not health.
