Amada America

AMADA laser cutting systems utilize the latest advances in fiber laser and CO₂ manufacturing technology that enable customers to maximize their productivity and profitability. The laser technology in AMADA fiber laser and CO₂ cutting machines allows for high cutting speeds and the flexibility to process a wide range of materials like aluminum, steel, copper and brass resulting in Process ...

Laser Cutting Systems Fiber & CO₂ | AMADA AMERICA

AMADA fibre and CO₂ laser cutting machines designed to optimise your production AMADA's solutions for laser cutting have been designed to meet all your application requirements. We are able to advise you on the perfect choice for your needs, CO₂ or fibre, which power (kW) is most suitable and if a stand-alone or automated system is right ...

Fibre laser and CO₂ laser cutting machines - AMADA EU

Energy saving, v-lot production, wide range fiber laser machine with process range expansion! ENSIS-3015AJ is equipped with Amada's own developed fiber laser...

Fiber laser cutting machine ENSIS-3015AJ_E - YouTube

High Speed Laser Cutting machine of AMADA Japan!

AMADA High Speed Laser Cutting Blechbearbeitung ...

AMADA laser cutting systems utilize the latest advances in fiber laser and CO₂ manufacturing technology that enable customers to maximize their productivity and profitability. The laser technology in AMADA fiber laser and CO₂ cutting machines allows for high cutting speeds and the flexibility to process a wide range of materials like aluminum, steel, copper and brass resulting in Process ...

Amada Canada

Laser cutting is a non-contact processes which utilizes a laser to cut materials for industrial applications. The cut and feature edges are generally of high quality with little no burring, low surface roughness and dimensional accuracy. ... Learn more about AMADA WELD TECH and our industry-leading products in our newsroom. Visit the Newsroom ...

Laser Cutting | Using Laser Cutting Method | AMADA WELD TECH

AMADA fibre laser machines offer high quality processing and unrivalled cutting performance AMADA was the first worldwide laser machinery manufacturer to develop its own fibre laser engine in-house. This choice was based on its intention to control the entire development process, always offering innovative and state-of-art technologies.

fibre laser cutting machines - AMADA EU

AMADA Pulsar 2415-III. Manufacturer: Amada Model: LC-2415 condition excellent ready for production cutting as shouldAMADA Pulsar 2415-III 2000KW CO2 Laser Cutter 2001 Amada Pulsar 2415III Laser CnC Fanuc 16L Control Year 2001 Condition Good Used Resonator Wattage 2,00...

Used Amada Laser Cutters for sale | Machinio

Robust System Design Process Ensures Production Success for Laser Welding, Cutting and Marking Processes. Video Center. Robotic Arm Integration. Stent and Tube Cutting System ... News. Learn more about AMADA WELD TECH and our industry-leading products in our newsroom. Visit the Newsroom. Learning Center. An educated customer is a happy customer ...

Laser Cutting - AMADA WELD TECH

We provide a wide range of precision machines from Amada such as Amada RG-5020LD 55 Ton x 6' 2-Axis CNC Upacting Press Brake, Amada FBD 1030LDR 110 Ton x 10' CNC Up-acting Press Brake and Amada HFE-1003s 110 Ton x 10' 8-Axis Down Acting CNC Press Brake. Take a look at our wide selection of new and used Amada equipment for sale.

Used Amada Machines For Sale | Amada Lasers | Amada Press ...

The process works by directing the laser beam through a co-axial gas nozzle to the workpiece. A combination of heat and pressure creates the cutting action. While lasers may be used to cut a variety of materials of many thicknesses, AMADA WELD TECH focuses on very fine, thin, metal cutting applications.

Laser Cutting | AMADA WELD TECH

Extracts the necessary components from the air for laser cutting in the environment and uses it for the assist gas. (The operating cost is relatively low as it uses the pressured air for the Amada option assist gas)

cutting knowhow v7 - SheetMetal.Me

The "Amada ENSIS-4020AJ" Fiber Laser Cutting Machine has a working area of 4070mm*2050mm and can handle up to a 1570kg table load, offer unprecedented machining capacity for all kinds of projects. For more details, please refer to the Specification section below.

Fiber Laser Cutting Machines | UK & Scotland | Omnidex Laser

Laser Cutting is a specialty at Metalworking Solutions with five high-speed precision laser cutting machines from Amada. Fabricating laser cut, formed and welded sheet metal components for manufacturers is our core competency. We utilize Fiber and CO2 Lasers with automatic loaders to provide the fastest response times in the industry.

procedures for the laser machine. To increase the cutting efficiency of the laser machine, read the manual carefully before creating programs. (For operating the laser machine, refer to the separate Operator's Manual.) ... out the prior written permission of AMADA CO., LTD. iii CONTENTS

CNC LASER MACHINE - Used AMADA

An ultimate source of used Amada punch presses, punch/laser and laser cutting machines, press brakes and panel benders, shears, tool grinders and bandsaws. The available offers of sheet metal processing equipment from all over the world stored in one place.

Used AMADA Laser cutting machines

LASER CUTTING WITH GAS ASSIST aser cutting using an assist gas results in the highest quality and most dimensionally accurate cuts: the laser is directed through a nozzle with an opening of less than 0.04" diameter to enable suitable focusing and pressurization of the assist gas onto the melt area generated by the laser.
