creation level. End users can choose to classify files by clicking the manual classification icon.

Manual classification - McAfee Data Loss Prevention 11.0.300

Classifications identify and track sensitive content by applying content fingerprints or content classifications to files and content. McAfee DLP identifies and tracks sensitive content with user-defined classifications. All McAfee DLP products support content classifications, that is, can apply them by assigning them to data protection, device control, or discovery rules.

Using classifications - McAfee Data Loss Prevention 11.0.000

After a while, the USB will be formatted in a success. You can copy the necessary files from backup storage to USB back and then connect it to your LG TV to see whether it is recognized.

Notes:  If you choose FAT32 file system, you can't copy an individual file larger than 4GB to the USB device.
