"A lexical field is a set of lexemes that are used to talk about a defined area of experience; Lehrer (1974), for example, has an extensive discussion of the field of 'cooking' terms. A lexical field analysis will attempt to establish the lexemes that are available in the vocabulary for talking about the area under investigation and then propose how they differ from each other in meaning and use.

Semantic Field Analysis Definition and Examples

What is a semantic field? Semantic (or sometimes called lexical) fields are a technique often used by writers to keep a certain image persistent in their readers' mind. They are a collection of words which are related to one another be it through their similar meanings, or through a more abstract relation.
